April 9, 2016

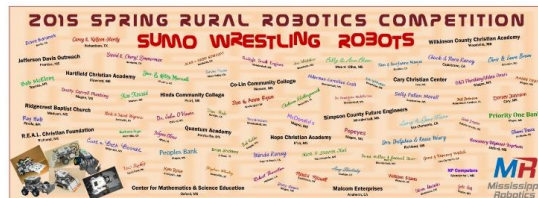

SUMO Robotics Workshop Schedule

The SUMO Robotics Workshop has been rescheduled (due to flood warnings) to April 9th and it will be held at the Nazareth Church located at 611 Dixie Ave, Mendenhall, MS 39114. Below is the day's schedule.

The purpose of this Workshop is for the participants to practice with their robots and to evaluate their design and driving skills against the other participants. Changes to the robot design, new driving and team strategies are encouraged. This is a day of learning as we prepare for the final competition on April 30th at Nissan in Canton.

Parents: Please feel free to walk around, ask questions to the "robotic engineers", and help us run the events. Please be careful of electrical wires and competition events in progress. Parents: PLEASE turn off Bluetooth from all cell phones. Thank You.

- 8:30am – 9:00am Teams Arrive and setup
9:00 am Opening (prayer and announcements)
9:15am – Noon Teams can practice/compete in the following events
